#### **DETAILED ACTION**

#### Election/Restrictions

Applicant's election without traverse of Group 1, species 1, and claims 1-11 in the reply filed on 3/31/05 is acknowledged.

After further consideration claims 6-9 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Claims 6-9 refer to the adjustable connector and its attachment to the support members, which pertain to unelected species 2.

## **Drawings**

The drawings are objected to because Figures 5-8 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 10-11 rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent 5,836,948 Zucherman.

In regards to claims 1 and 2, Zucherman discloses the same invention being a pair of supporters each made of titanium and a connector made of titanium both being biocompatible shown in figures 74-78 and described in column 4 on lines 17-27 of Zucherman.

In regards to claim 3, Zucherman discloses the same invention wherein each supporter has a substantially J-shape by having a different length from each other shown in figures 74-78 of Zucherman.

In regards to claims 10 and 11, Zucherman discloses the same invention wherein each supporter is formed with through-holes described in column 4 on lines 22-27 of Zucherman.

Application/Control Number: 10/620,335

Art Unit: 3738

### Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 4 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over United States Patent 5,836,948 Zucherman.

Zucherman discloses the claimed invention except he does not specify that the two parts of the supports be spaced apart from each other by a distance ranging from 2 to 4 mm. It would have been an obvious matter of design choice to adjust the support parts of Zucherman to be spaced between 2 and 4 millimeters apart, since such a modification would have involved a mere change in the size of a component to match the operation site. A change in size is generally recognized as being within the level of ordinary skill in the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher D Prone whose telephone number is (571) 272-6085. The examiner can normally be reached on Monday Through Fri 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (571) 272-4754. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
